

# Encapsulation

## Embedding of active ingredients

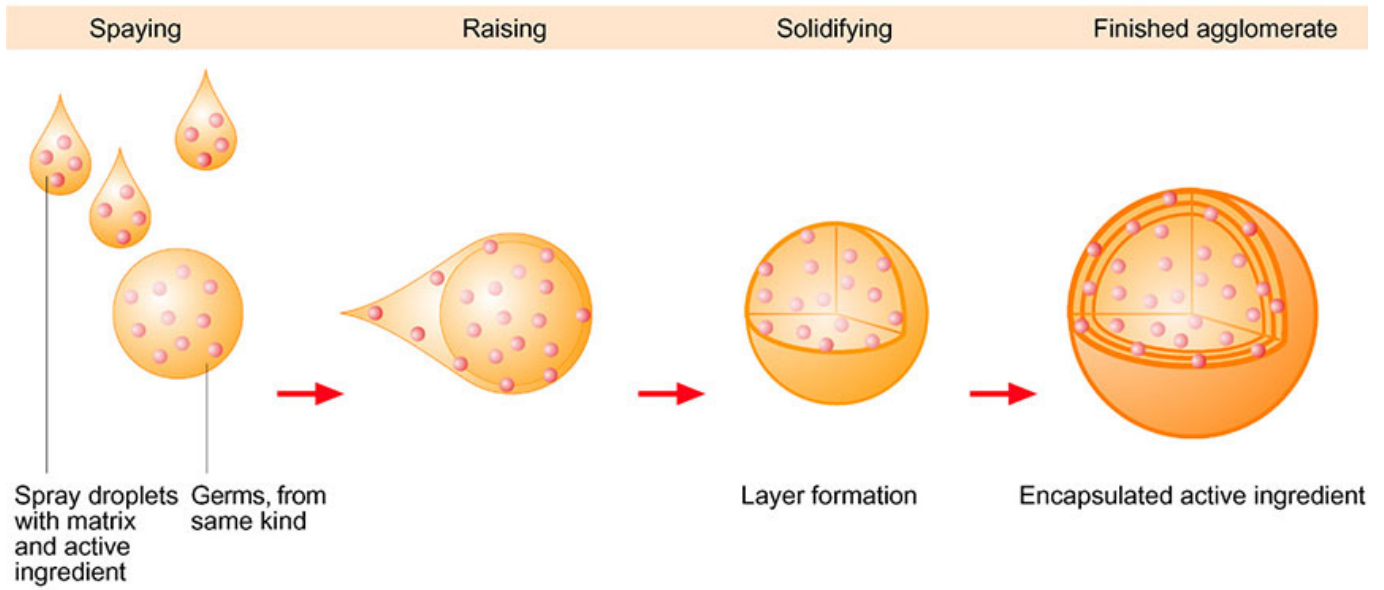

- Microencapsulation in a fixed matrix
- Long shelf life
- Controlled release possible
- Narrow particle size distribution
- Granulate properties can be manipulated
- Embedding of active ingredients

Oxidation-sensitive oil encapsulation in an [emulsion](#), dried by spraygranulation.

---

## Principle of the encapsulation process by spraygranulation

# Encapsulation by wet granulation

## Principle of the encapsulation process as matrix pellet

# Encapsulation by wet granulation
